

**Future
President?**

Snap, Kunkel, Stop.

Fundraising?

Haley says that there will be a cause for every fundraiser she does, but then she later states that she is having all of the fundraisers money go towards the school. Doesn't that defeat the purpose for having a cause? Haley is a liar. Proposing "causes" for her own selfish reasons. Sure they benefit the school, but do we want to be known as selfish liars? I think not.

Fattening Our Students

Kunkel proposes to bringing back butter and salt. By doing this the students would have a higher risk of high cholesterol and getting fatter from butter. By bringing this back she has only introduced one or two new physical training classes. By doing this she has not made it a very solid option to exercise off all of this unhealthy nonsense she is bringing to our lunches.

- "Snapping fundraising, Kunkling our lunches, and Popping our education."

- Vote Haley?

Cutting our education time?

Haley believes that our last period should be cut for athletes. What does this propose? She is trying to make Brandon Valley High School an unintelligent school. Brandon Valley is the highest ranked in our education, and by her stating this she is trying to lower our test scores and give us less class time because of an extra curricular. They are called extra curricular for a reason. You do them after school not during them.
