

BE SAFE

ALEX

Wants to add a swimming pool to the school and put it where the ice rink is now. Do you really want to spend money on a new pool and not have anywhere for hokey and skaters to skate when we already have a pool? Alex wants to provide Bacon, Pie & Ice Cream at all times, but where the money for it coming from and do you really want to get fat? And really, Disc Golf on the roof, discs flying everywhere and what happen if his “safety precautions” don’t work, WOW?!?

MORE FORGIEN LANGUAGES

Alec Rogen wants to add a larger assortment of foreign language classes. Putting more classes in means we would need more class rooms to teach them in. meaning we would have to expand the school, cost thousands of dollars. And don’t forget we would need teachers to teach these class, where are we going to find these teacher and how will we pay them.

Fees for participating in Intramural Sports

Now you’ll have to pay to be in intramural sports. Don’t you see that many people won’t be able to be in these sports because that wouldn’t be able to pay for the fees. How much are these fees 20, 30 or even 40 plus dollars?!? Where is all the money made from these fees going to go for, maybe the Pokémon Tournaments??
