

Your bro Joe?

Danger to students

Joe Sandoval of the Populist party claims to be “your bro.” However, a few of his extra curricular activities are far from friendly. He is all for allowing guns in the school setting and is practically setting Brandon Valley up for a school shooting. He is allowing students to do dangerous activities that could have fatal or severe outcomes. Last time I checked, your “bro” would not want you to get hurt.

Improvements? Hardly

Joe imposes the school should cut TEAM and add DWYW (Do Whatever You Want). If students are allowed to do as they please, this school would be full of chaos. Students would make poor decisions and would disregard the rules already set. Students would bring in illegal things and can cause harm, but that’s okay with Joe. We can do whatever we want.

Raising money for the school, or spending it all?

Sandoval thinks that the spread of illness and selling a child’s innocence will help earn money for the school. He clearly shows no concern about raising money, rather than buying costly and unnecessary items. Selling books will not earn hardly enough money to purchase an iPad or laptop for every student. His thought process on saving money obviously isn’t looking at the big picture. His methods prove very costly and would put our school heavily in debt.
