

Class Improvements

Brendan Gallo will be sure to eliminate team. This will give each teacher approximately 2 minutes longer to teach each day. In a year that adds just over 360 minutes. As another act in office, Brendan will update and improve our old bathrooms. Along with these enhancements he will paint the classrooms. Brendan will sit down with all the teachers and discuss what color would be appropriate.

**Gallo For
President**

**Brendan
Gallo for
President**

**Vice President:
Mason Bender**

Class Offerings

If elected President, Brendan Gallo would create a Video Game Analysis Class. This class would teach you all the mandatory moves to becoming an avid gamer. These games can also help you learn to survive real life situations. Also Brendan would incorporate a Sports Analysis Class to our program. This class would not only keep the BV Students in a healthy condition, but help them understand the game better.

Rules and Punishment

Brendan will change the way our current lunch program works. He would create a food court style lunchroom. This allowing students to have more options.

Gallo will also be putting a snack bar in our Brandon Valley hallways. This will be beneficial to students who don't have lunch.

National Issues

When elected as school president Brendan will focus on our gas prices. He believes this is a big deal for many students and teachers because they have to drive to school every morning. Also for the kids who ride the bus that is the money coming out of the school budget. Gallo will make these things happen by relaxing regulations of off-shore drilling and development of clean energy.

Food and School Lunch

Once Brendan is elected president he will work on improving our school lunch rooms. For starters he will set up the lunch room in a food court style. This will give more variety to our student body. He would also like to put a snack bar in the hallway for kids to stop at in-between classes. In addition this will be beneficial to kids with no lunch.
