

Brendan Gallo and Mason Bender Suck

Brendan and Mason want to add beach volleyball but I don't see how you can do that when you aren't around any beaches.

Open lunch for everyone isn't good for our school. We would lose money coming in from lunch and that would just mean less money to spend on other things like heat or air conditioning. It would also increase the tardy rate and some kids wouldn't get any food at all because of the increased populated restaurants.

They want to move lockers out of the main hallway and ruin the convenience of having them where they're easily accessible. The only place to move them to would be in an area of the school completely out of the way for everyone.
