

# Asian Persuasion?

---

Long Pham is also “persuading” you to quit learning. He’s implementing cell phone use in class. Spas, Ice Cream Parlors, and arcades will be added to school grounds. Learning doesn’t seem to be important to Long Pham. Video game classes will be available. School is a joke to Mr. Pham. He doesn’t take the education of American’s seriously. If he doesn’t take education seriously, what else doesn’t he take seriously? Long Pham is not a serious candidate for the presidency.

You might want to ask yourself what is Presidential candidate Long Pham persuading you to do. The answer is that Long Pham is NOT persuading you to do to anything. The correct terminology would be that he’s forcing you to submit to his ridiculous ideas on his platform. Mr. Pham, along with Vice President Haydn Heisel, are planning to make America obese. He’s “persuading” you to eat, eat, eat all day long. The health of Americans will surely decrease by the new additions of Junk Food Bars to school cafeterias. Ice cream parlors will be installed as well. Cinnamon rolls will come with every lunch. All students would be allowed to eat in class. So before you vote, ask yourself, “What will I be “persuaded” to do under the reign of Long Pham?”
