

VOTE NATE!

Candidate: Elliot Blue

Candidate Elliot Blue has many good ideas in his platform. However, he has failed to express how we would pay for these programs and other improvements to the school. First, he wants to update our technology with Wi-Fi, laptops, and iPads. Laptops range in price from 200-1000 dollars, and the cheapest iPads are 500 dollars. That would cost the school thousands to hundreds of thousands of dollars, and that doesn't include possible repairs or replacements. Elliot also wants to put in a pool/recreation center near the school. Construction alone could cost thousands to millions of dollars, and maintenance of the facility could cost a few thousand dollars a month. Also if we had to hire more staff to work in the facility, that would also cost us money.

He also wants to add a petting zoo. A petting zoo could cost thousands of dollars to construct and maintain (animals, food, cleaning, medical, etc.). The animals could possibly have diseases, or attack the students or staff. Angry parents could sue the school. Elliot wants to ease the "traffic" in the hallways by making the hallways wider. Making the hallways wider would make the classrooms smaller and possibly eliminate locker space for the students. We would basically have to tear down the walls and put them back up again, which could possibly cost a lot of money. Many students would be angry at Elliot's idea to take away semester tests for AP classes. Students would not be able to improve their grade, and might not be prepared for AP tests in college. Also, colleges could not look at the students test scores. For new courses, Elliot would like to add a self-defense class. Students could possibly get hurt practicing, or if they use equipment incorrectly, or mess around and don't listen to the teacher. Lastly, Elliot wants to slowly cut securities such as Medicare and Medicaid to reduce the national debt. Many older people will be mad about losing their hard-earned money, and baby-boomers and our generation will get little to no money. Elliot Blue is a strong competitor, but if you want the best for our school, vote for Nate Boscaljon on election day, March 28th. Always remember "Hater's gonna hate but Nater's gonna Nate".
