# Austin Weisenbach: Our Future's President

## College Style Buffet

Austin is in favor of a college style buffet where we will also have different foods from other restaurants so students may have a wider variety. He chose this option for open lunch to save gas for the students.

## Study Hall Instead of TEAM

Although team was a good option Austin thinks that a study hall would be more beneficial. Because of the twenty minute study hall there will be an improvement in grades.

## Lazer Tag & Zumba

Among other activities he has decided to add laser tag and zumba. These fun upbeat classes will entice more students to be active and engage them with other students.

## Fundraisers- Dances/Lawn mower

Austin is going to get dances that are actually fun. They will probably bring in most of the school, so we will make some money. The lawn mower races will be popular if not more popular than the football games.

## Bring Troops Home

Many People wonder why we are bringing the troops home if we were in a war. Well Austin thinks it is better for the family members, they don't have to worry about if their loved one is going to die.

## 8:30 start on Mondays

Everybody hates waking up on Monday mornings. That's why Austin is going to have you come to school 30 minutes later.
