

## The National Debt

We all know that the countries national debt is a big issue in our country. As president, Elliot blue will cut pork to help our deficit spending

## Other National Issue

Our country's use of recourses needs to be cut back immensely, we will find alternative energy solutions to keep our country and economy green.

# Elliot Blue: Get a clue, vote for Blue!

## Rules and Punishment

The Elliot Blue campaign believes that our students should not have to take semester tests on their AP classes because those student already have the choice to take the AP test to get college credit. But of course if they are failing that said class they must take that semester test.

## Extra Curricular Activities

The Elliot Blue Campaign believes that we should add hockey, ultimate Frisbee, and to keep our students fit for all activities.

## Class Offerings

Our campaign wants to add a survival class for those of us students who want to learn more about the outdoors and survival strategies.

## Improvements to BVHS

Our main improvements we want to make to the school is to upgrade our laptops to iPads for all the students to make it easier for our students to work on homework. We want our students to always have a way to get work done as easy as possible.

## Food/School Lunch

Our greatest proposition to make our school lunch better is to bring in food vendors to the commons where students can have a bigger variety of nutritious, healthy food options. This would also pose as a way to raise more money for the school.

## Raising Money

Our biggest idea to raise money for the school is to turn the old practice football field into a drive in movie theatre. Keeping the football field of course, we can turn this theatre into a safe environment for all families.
